Organization Level Structure

- The name field should not accept only numbers

Name✔

412

Organization hierarchy:

- In the name field, the text box should be empty

Name*

10...

Short Name*

- The more the hierarchy gets bigger, the more it gets messier. It's not organized
- having 2 saving buttons will confuse users
- Errors come and then disappear after making changes.

Division
(Division)

Error ✖
- An error has occurred.
- An error has occurred.
- Organization Code is required field
- Organization Structure Level is required
- Short Name is required field

Manage locations:

- The name field should not accept only numbers

Location Info

Name✔

434

- Couldn't test the locations, the system logs me out.

Manage area:

- Name field should not accept only numbers

| Name ✔	Name (عربى) ✔	Short Name ✔	Short Name (عربى) ✔
443	44	ist	55

Manage staff:

- Add button is not there

Manage roles:

- I wasn't able to edit other roles, only mine. Others were locked

Manage locators:

- A label with the locator code is preferred to be available for users.
- Message ambiguousness and missing spaces between words.

Error ✖
- The value of the LocatorGenerateDto is invalid!.

Physical objects:

- Locator was a required field, but the red star wasn't there

Error ✖
- Locator is required field

Locator

Search by locator code

- Locator code field is not clear. I didn't find where it needs to be filled and saved. It should be in the manage locaotr sectio, but there is only code sytle fields and they are optional.
- From year to year fields must be mandatorily filled

From Year

📅 dd/MM/yyyy

To Year

📅 dd/MM/yyyy

Storage requests:

When I accepted a request, it didn't appear in the approved list. Since I wasn't able to approve it from RCS. A locator code was needed and I didn't know how to get it.

Transfers:

- Couldn't accept a transfer since a locator code was required
- Rejection is not allowed

Borrowings:

- Borrower staff field should be mandatorily filled

Borrower Staff

Search by name

Description✔

- The borrowing request I created didn't appear in the Created section

Manage RSI:

- Changing from active to inactive didn't appear but operation succeeded without changes

Manage classifications:

- Name field must be mandatorily filled, and should not accept only numbers.

Name

43432

- Disposition authority must be mandatorily filled, and must have authorized name appearing in a list box, so users can pick from it.

Disposition Authority
